5. MARGING TRADING

Foreign Exchange and CFDs are margin products and the transactions related to them will be done on margin. This means that the Client must supply a specified initial margin (deposit), on agreement, of the overall contract value.

Margin Stop-out Level

The sum of funds (i.e. equity) in the account (including the unrealised net profits of all open CFDs connected to the account) falls to 50% or less (in case of slippage) of the total Margin Level required to maintain open positions. In other words, the stop out level for all trading accounts held by retail clients is equal to 50% of the Margin Level required to maintain open positions.

The Stop-out level is the level of your equity where our Trading Platform will start to automatically close trading positions, starting from the least profitable position and until the margin level requirement is met, in order to prevent further account losses into the negative territory. For all accounts held by Retail Clients the Stop-out Level is 50% of the Margin required to maintain the open positions/transactions.

The margin call process is entirely electronic and there is no discretion on the Company's part as to the order in which trades are closed.

It is strongly advised that Clients maintain the appropriate amount of margin in their accounts at all times. Margin requirements may be changed based on account size, simultaneous open positions, trading style, market conditions, and at the discretion of the Company.

The Client thus accepts, acknowledges and understands that:

- The Company sets freely the amount of margins, the assets that may be used as collateral and the extent of any collateral such assets may provide;
- All the Client's assets held on account(s) with the Company are therefore blocked and pledged in this connection;
- The Company may also change its rates of initial margin and/or notional trading requirements at any time without prior notice, which may result in a change to the margin the Client is required to maintain;
- Taking into consideration the low margin normally demanded for these transactions, price variations in the underlying asset may result in major losses, which could significantly exceed the investment and margin deposit committed by the Client;
- The Client may be required to provide a margin at very short notice to avoid the risk of having his positions closed and realizing a total loss;
- If the Client fails to comply with a request for additional funds within the time prescribed, the position(s) may be liquidated at a loss and the Client will be liable for any resulting deficit;
- In certain cases, price changes may be so drastic that the Client's positions may be closed without any period allowed for him to restore his margin;
- The Company provides the Client with online access to enable the Client to monitor his/her margin requirement at all times;
- The margin calls are made by the Company directly through the online trading platform only and the Client has the possibility to see on his/her account the existing assets and margins.

Hedging Feature

The MetaTrader platform allows the feature of hedging; i.e. opening opposite direction positions on same pairs/trading instruments. The Client should understand that while having an opposite position on a same pair/trading instrument offsets the exposure on that pair/instrument and fixes the floating profit/loss on the part hedged, the Client will still have risk exposure on some pairs if his/her floating profit/loss is in one currency and his/her account is denominated in another.

Accordingly, and in such cases, his/her floating profit/loss will increase/decrease relevant to the fluctuation of the net floating profit/loss base currency amount vs the currency in which the account is denominated. For example, when hedged positions are opened in EUR/USD and the account is denominated in EUR, the account equity will be subject to fluctuation according to the EUR/USD rate fluctuation on the floating profit/loss amount. It means that in certain cases 100% hedged account equity could still decrease/increase under changing market conditions.

Under Negative Balance Protection Prior Capital has a right at its discretion to close hedged positions as defined in this paragraph that remain hedged for over a long period or at any time at its choice if Client's equity (balance plus floating result) will approach zero starting from 300 monetary units (USD; EUR or any other currency in which the accounts is denominated) level.

**Example: The Client's balance is 10.000 EUR. The Client opened two opposite positions with EUR/USD pair in different period of time. Due to long period of holding and price fluctuation, the account's equity started to decrease. If Client's equity falls below 300 EUR, the system will close the most unprofitable position. After that the trading platform recalculates account's equity. If the equity falls below 300 EUR again, the system will close the next (last) unprofitable position.*

6. RISK ACKNOWLEDGEMENT

The Client accepts, acknowledges and understands that the transactions are:

- a. highly speculative;
- b. carry a high-level of financial risk, as they are subject to excessive price fluctuations which may entail a high risk of losing all the invested capital;
- c. they are not appropriate for all investors. Only suitable for persons who are able to cope with the associated risks by bearing the financial losses.

Furthermore, the Client accepts, acknowledges and understands that:

- a. the Company does not guarantee the capital of the Client portfolio or its value at any time or any money invested in any Financial Instrument;
- b. the value of any investment in Financial Instruments may fluctuate and the investment may become of no value;
- c. the value of any investment in Financial Instruments may fluctuate and this may result in considerable losses, substantially exceeding the amount of Client's investment and margin deposit and declares that he is willing and able to undertake this risk.

7. CLIENT'S ACCOUNT

The Client shall open an account with the Company to conclude purchase and sale as well as the safekeeping of the Financial Instruments.

The Client accepts that PriorCapital is the only execution venue in relation to his or her trading activity under the Agreement. Further information can be found in Company's "Order Execution Policy".

In order to open an account, the Client will need to fill out our online application form/questionnaire. At the end of this form, the following documents must be uploaded:

- Proof of identity: International Passport (full page) or ID (front and back side) or Driving License (front and back side). The document must be valid; colored/clear resolution; date of birth stated.

In the event that the Client cannot send the necessary documents by email, the Company will accept them by post, however, email still remains the preferred method.

If the Client has opened more than one account, the Company shall be authorized to consider and treat these different accounts as a single unit. Among other rights that the Company has in the way of handing these accounts, is the transferring of funds between accounts to cover possible negative balances, of any of these accounts, without this affecting in any way the right of the Company to terminate the account or close all Client's open positions.

Any funds received in a currency for which the Client does not hold a sub-account shall be converted by the Company into the Client's base currency, unless otherwise is specified. The conversion will be made at the exchange rate applied on the day and at the time when the relevant funds are at the disposal of the back-office (funding) department of the Company. Upon request, the Client may open a sub-account in multiple currencies the Client needs for investment operations.

8. SAFEGUARDING OF CLIENT'S FUNDS

When holding Client's funds, the Company shall take every possible measure to safeguard the funds against the use of Client funds for its own account.

Client's funds will be held in the name of the Company in one or more segregated accounts held with a financial institution within or outside the European Economic Area (EEA), separated from the Company's money. This means that all Client money is treated as belonging to Company's Clients and under no circumstances we will use it to meet any of our obligation, at any time.

The Company will maintain separate records in the accounting system of its own funds/assets and funds kept on behalf of Clients so as at any time and without delay to distinguish funds held for one Client from funds held for any other Client, and from its own funds/assets.

The Company will carry out reconciliation of funds on a regular basis as per applicable legislation and in line with its internal policies and procedures, and we will proceed with any required transfer to or from the segregated account on the next business day, unless this is not possible for any reason.

Client funds are kept off balance sheet and cannot be used to pay back creditors in the unlikely event of default of the Company. In addition, the Company will not be liable for any failure or insolvency of any bank and/or financial institution in which Client funds are held, however, applicable investor compensation or deposit protection schemes may protect a proportion of Client funds.

The provision of safekeeping of Financial Instruments shall be regulated by a separate agreement between the Company and the Client.

9. CLIENT CATEGORIZATION

Following the implementation of the newly reformed Markets in Financial Instruments Directive II (MiFID II) in the European Union and in accordance with Article 101 of the Investment Services and Activities and Regulated Markets Law of 2017 (Law 87(I)/2017) in Cyprus the Company is required to inform and categorise its Clients into one of the following three categories: Retail, Professional or Eligible Counterparty.

Therefore, when the Company is considering an application for opening an account, it will classify a prospective Client under any of the above categories based on the information provided by the said Client.

Where the Company treats the Client as a Retail Client, he or she will be entitled to more protection under the law than if the Client was a Professional Client.

Were the Company has determined that the potential Client meets the criteria to be treated as a Professional Client, he or she is responsible for keeping the Company informed about any change, which could affect their categorization. Should the Company become aware that the Client no longer fulfils the initial conditions which made him/her eligible for a professional treatment, the Company will take appropriate action.

They are however allowed to request (in writing) non-professional treatment and the Company may agree to provide a higher level of protection.

10.OBLIGATIONS OF THE CLIENT

The Client confirms that is familiar with the way financial markets work and with the transactions he or she wishes to undertake and should be based on his/her own assessment of his/her financial situation and his/her investment objectives. The Client should seek for independent tax advice if he or she is unsure on how this may affect to him/her, as the Company does not provide any financial advice, including tax advice.

The Company is not responsible for paying Client's tax obligations in relation to possible income tax or similar taxes imposed on the Client by his or her jurisdiction on profits and/or for trading in Financial Instruments. All responsibilities to deal properly with the tax authorities of the Client's jurisdiction lies exclusively on the Client.

However, if the Client intends to acquire the Financial Instruments (or such instruments may be acquired according to a portfolio management strategy undersigned by the Client) on which a passive income can be paid (such as dividends on shares or coupons on bonds), and provided that the Client wants to apply possible tax incentives under a Double Tax Treaty, the Client may provide the Company with an appropriate certificate confirming the Client's tax residency to be submitted to the income payer upon the payer's request.

However, the Company shall not be responsible for realization of such possible tax incentives regardless of whether the certificate has or has not been submitted to the Company by the Client or to the income payer by the Company.

14. INTEREST

The funds credited to the Client's account with the Company shall not bear interest.

By accepting this Agreement, the Client give his or her express consent and waives any of his/her rights to receive any interest earned on his/her funds held on the bank accounts of the Company.

Furthermore, any Self-Trading Client which has one or several trading accounts with no trading activity for a period of three (3) consecutive calendar months will be considered as a Dormant Account. In such cases administrative fee is not applied for a period of twelve (12) months.

In cases where not all trading accounts are inactive, Clients will receive a notification via email on the eleventh month of inactivity about the specific trading accounts asking for confirmation to close these trading accounts or to activate them (i.e. to deposit and to start trading). The Client will be asked and should reply with instructions on how to proceed, i.e. to keep these trading accounts active or to close them accordingly.

Analytically, an account will be considered as a Dormant Account in the case that all the below-mentioned points simultaneously apply:

- No deposit of funds has taken place within the last three (3) consecutive calendar months in the specific account.
- No trades/positions have been executed or are open and pending for the last three (3) consecutive calendar months through this account.

- Starting from the seventh month till ninth – a fee of 0.50 USD/EUR/CHF (depending on account currency) shall be charged to the Dormant Account.
- Starting from the tenth month till one-year period – a fee of 0.80 USD/EUR/CHF (depending on account currency) shall be charged to the Dormant Account.
- After twelve months (onward) that the account still remains to be considered a Dormant Account –1.00 USD/EUR/CHF (depending on account currency) shall be charged to the Dormant Account.

The deduction will take place until the balance of the Dormant Account has reached zero (0).

Dormant Accounts with zero (0) balance will be archived after a period of 30 calendar days from the date of the last transaction (including transaction of dormant fee charge).

In the event that a Client re-activate his or her account(s), that is, deposit new funds and / or start trading, within the timeframe during which the Dormant Account administration fee is being applied, the Company will cease to deduct the Dormant Account administration fee, but it shall not be obliged to refund any Dormant Account administration fees deducted from relevant account(s).

The current Policy applies for all trading accounts opened with PriorCapital.

The Client declares that he or she assumes responsibility for all consequences that could result there from.

The Company shall not incur any liability by refusing to carry out orders given by a person whose identity has not in its opinion been sufficiently verified.

The Client shall be responsible for all orders and for the accuracy of all information sent via Internet following use made of the Client's name, his or her password or any other personal

The Company shall consider such orders or communications as having been authorized and issued by the Client. It is Client's responsibility to keep passwords confidential and to prevent unauthorized use of their passwords and their Trading Terminals.

For the orders placed in writing, the Company will verify the Client's signature with the sample signatures lodged with the Company. The Company shall not be liable for any fraud and/or lack of identification that it has not discovered.

Prior to any transfer order, the Company may request an original written confirmation duly signed by the Client.

The Company has the right to refuse to accept a Client's order for execution without giving any notice and/or explanation to the Client. Among the cases that the Company is entitled to do so are the following (the list is not exhaustive):

The Client needs to be aware that the Company will refuse to accept or it may cancel any orders placed and/or executed via the Trading Terminal without any notice if it comes to its attention that the logic behind those orders is to abuse the whole system (i.e. use of specific EAs to generate volume by opening and closing positions at the same price) in order this way to gain unfairly benefits for the Client and which is beyond the traditional scope of fair trading.

The Company has a right to cancel or reverse any profits gained through Abusive Trading.

18. SUSPECTED MARKET MANIPULATION & FRAUD

18.1. Illegitimate or Abusive trading techniques: Internet, connectivity delays, and price feed errors sometimes create a situation where the prices displayed on our Trading Platform does not accurately reflect the market rates. The concept of using trading strategies aimed at exploiting errors in prices and/or concluding trades at off-market prices and/or by taking advantage of internet delays (commonly known as “arbitrage”, “sniping” or “scalping” hereinafter, collectively, referred to as “manipulation”), cannot exist in an OTC market where the client is buying or selling directly from the principal; accordingly, we reserve the right, at our sole discretion, NOT to permit the abusive exploitation of manipulation on our Online Trading Facility and/or in connection with our Services; any Transactions or Contracts that rely on price latency manipulation opportunities may be revoked, at our sole discretion and without prior notice being required; furthermore, in those instances, we reserve the right, at our sole discretion and without prior notice being required:

- a) to make the necessary corrections or adjustments on the Account(s) involved (including, without limitation, adjusting the price spreads available to the client);
- b) to restrict the Account(s) involved access to streaming, instantly tradable quotes (including, without limitation, providing manual quotations only and submitting any Orders to our prior approval);
- c) to retrieve from the Account(s) involved any historic trading profits that we can document as having been gained through such abuse of liquidity at any time during the client relationship;
- d) to terminate the client relationship and/or close all Accounts involved (including, without limitation all other Accounts held by the same Account holder with us) immediately by giving written notice; and/or
- e) to inform any interested third parties.

18.2. Any indication or suspicion, in the Company's sole discretion, of any form of manipulation (including but not limited to risk free profiting), abuse (including but not limited to participant's trading activity patterns that indicate that the participant solely aims to benefit financially without being genuinely interested in trading in the markets and/or taking market risk), internal hedging in coordination with other parties, abuse of our 'no negative balance' policy, fraud, manipulation, cash-back manipulation or any other forms of deceitful or fraudulent activity, will constitute all Transactions carried and/or profits or losses garnered as invalid. In these circumstances, we reserve the right to close/suspend (either temporarily or permanently) all of the Client's trading Accounts and cancel/or all Transactions.

19. TRANSFER OF FUNDS

The Company shall inform the Client of the name, address and account number of the Company's Client account for transferring funds.

The Client shall clearly specify his or her name and other required information as may be required by the Company on a case by case basis, in accordance with applicable regulations related to the fight against money laundering and terrorism financing, on the payment document. It is the Company's policy not to accept payments from third parties to be credited to the Client's account.

Any amounts transferred by the Client to the Company's Client account will be deposited in the Client's account at the "value date" of the received payment and net of any deduction/charges by the transferring bank.

By signing this Agreement, the Client gives his or her consent and authorizes the Company to make deposits/withdrawals to/from the Client account on behalf of the Client for reasons, including but not limited to, the margining and/or settlement of transactions performed by or on behalf of the Client, for payment of all mutually agreed fees/costs due by or on behalf of the Client to the Company or any other relevance or specific reason.

The Client gives his or her consent and authorizes the Company, where applicable, to transfer/hold his or her funds within or outside the European Economic Area (EEA) authorized broker in which the Client's funds will be located on a segregated Client's account.

The Client, using the Company's relevant '*Fund transfer request*', shall provide the Company with his or her bank account in order for the Company to transfer any amount payable to the Client. It is the Company's policy to transfer all amounts directly to the Client's personal account. The request to withdraw the funds is processed on the same day it is received, provided such request is received within business hours (Monday - Friday, 09.00 - 18.00 (CET)), taking into account the margin level on the account of the Client, the withdrawn sum, and the requirements of the Company and the correct indication of all data for execution of the remittance. If the withdrawal request is received after business hours, it shall be processed on the following business day.

Terms and fees for deposits/withdrawals to be made through approved payment system(s) are found in **Appendix**. Also, you can find more information about the terms and fees for deposits/withdrawals on the Company's [website](#).

The Company has the right to refuse/suspend or cancel the Client's instructions for transferring funds in any of the following cases (the list is not exhaustive):

- if the Client instructs the Company to transfer the funds to a third party;
- if the Company has reasonable grounds for suspecting that the person who gave the transfer order was not a duly authorized person;

Any claim relating to the performance or non-execution of an order will be considered only on the express condition that it be made in writing upon the occurrence of the events in question and at the latest before the opening of relevant market on the day after the execution, that is, within a 24-hour period from the time of occurrence. It should be noted that the use of an expert advisor or any other program that is used to perform technological and/or algorithmic trading, also alleviates a Client of any right to claim.

Once this period has expired, the Client shall no longer have any rights, of any type whatsoever, against the Company.

If the Client has any cause for complaint in relation to any aspect of the services provided by the Company, the complaint should be addressed to the Company, via email at complaints@priorcapital.eu.
